EXPERIENCE

2019 – Current
Deli Associate • Walmart Superstore • Dartmouth, Nova Scotia

"Essential functions" of the deli associate job are duties that recur, and must be performed repeatedly. These include providing excellent customer service; stocking and receiving deli items, such as meats and cheeses; maintaining the department's appearance and cleanliness; and following company policies and procedures as well as local and federal laws regarding food safety. Associates must also usually possess the ability to use powered equipment including a meat and cheese slicer, deep fryer and rotisserie oven.

2016–2019
Guest Experience Lead/Cook • McDonalds Canada • Dartmouth, Nova Scotia

My role at McDonalds was to ensure the optimal satisfaction of guests and host events. I was also charged with handling any customer service issues and ensure our guests left our restaurant with a positive view of our store and our service. I was also As Guest experience lead, one of my tasks was to encourage guest to complete guest surveys. During my employment there, we were able to increase guest satisfaction scores to the highest in the store's history.

2015– 2016
Cook • Seafarers Pub • Dartmouth, Nova Scotia
My main responsibility was to cook, clean and deal with custom requirements due to allergies and other dietary requirements in a stressful, high paced environment.

2019– 2019 (co-op work term)
Jr Java Developer • NTT Data • Halifax

During my Co-op at NTT, I created and implemented forms for an internal Database Ticket Systems Web App. In this Project we used Java and XHTML.

EDUCATION

Sept 2018 – Current

NSCC, Halifax, Nova Scotia

Currently enrolled in IT Programming

Sept 2015 – June 2018
Cole Harbor District High School, Dartmouth, Nova Scotia

Graduated with high honors in 2018.

LEARNING

Learning is my passion I love researching and playing with new concepts, so I may not know everything, but I am more than willing and able to learn whatever is needed.

PROJECTS – SCHOOL ASSIGNED

TIC-TAC-TOE with Simple Bot

I coded a plain game of tic tac toe with a simple bot that will either tie or win.

Pac-Man Clone

This Pac Man Clone was made in C# Desktop Application that showed of Wall collision and hit boxes.

Web Database Ticket System

I worked on this, along with a team from NTT Data for Tufts Health Plan. The Web App I was working on was Java based. I did touch the framework Java Spring for some features. We used XHTML used as a form GUI.
